

LABORATORY OBSERVATION

Course: Full Stack Web Development

Course Code: 23CM4121

Experiment No.: 7

Student Name: Gorapalli Sravya

Roll No.: A24126552257

Date: 26-08-2026

1. TITLE

Design a College Information Portal Webpage

2. AIM

To design a multi-section College Information Portal webpage using HTML5 and CSS3 that presents information about the college, its departments and contact details.

3. OBJECTIVE

The objectives of this experiment are:

- To design a webpage with multiple sections using semantic HTML5 tags.
- To display structured information such as departments using a card-based layout.
- To present contact details using an HTML table.
- To style the portal using CSS3, including Flexbox for a responsive department grid.

4. THEORY

An information portal is a webpage that organizes and presents structured information about an organization through clearly defined sections such as an introduction, categorized listings and contact details.

HTML5 semantic elements such as <header>, <nav>, <section> and <footer> are used to structure a portal page in a way that is meaningful to both browsers and assistive technologies.

CSS3 Flexbox (display: flex) allows department cards to be arranged in a flexible, wrapping row that adapts to the available screen width, while properties such as border-radius and box-shadow give each card a clean, modern appearance.

5. ALGORITHM / PROCEDURE

1. Create an HTML file, index.html.
2. Add a header section containing the college name and a navigation bar.
3. Add an 'About' section describing the college.
4. Add a 'Departments' section containing a card for each department.
5. Add a 'Contact' section with a table of contact details.

6. Add a footer with a copyright line.
7. Create a style.css file and link it to the HTML page.
8. Style the header, navigation, department cards (using Flexbox) and table.
9. Save both files and open index.html in a browser to verify the layout.

6. PROGRAM

index.html

```
<!DOCTYPE html>
<html>
<head>
  <title>ANITS College Information Portal</title>
  <link rel="stylesheet" href="style.css">
</head>
<body>

  <header>
    <h1>Anil Neerukonda Institute of Technology & Sciences</h1>
    <nav>
      <a href="#about">About</a>
      <a href="#departments">Departments</a>
      <a href="#contact">Contact</a>
    </nav>
  </header>

  <section id="about">
    <h2>About the College</h2>
    <p>ANITS is an autonomous engineering college offering undergraduate
      and postgraduate programs in engineering and technology.</p>
  </section>

  <section id="departments">
    <h2>Departments</h2>
    <div class="dept-grid">
      <div class="dept-card">
        <h3>CSE</h3>
        <p>Computer Science & Engineering</p>
      </div>
      <div class="dept-card">
        <h3>CSE (AI & ML)</h3>
        <p>Artificial Intelligence & Machine Learning</p>
      </div>
      <div class="dept-card">
        <h3>ECE</h3>
        <p>Electronics & Communication Engineering</p>
      </div>
    </div>
  </section>

  <section id="contact">
    <h2>Contact Us</h2>
    <table border="1">
      <tr><th>Field</th><th>Details</th></tr>
      <tr><td>Address</td><td>Sangivalasa, Visakhapatnam</td></tr>
      <tr><td>Phone</td><td>+91-891-2790101</td></tr>
      <tr><td>Email</td><td>info@anits.edu.in</td></tr>
    </table>
  </section>
</body>
</html>
```

```

</section>

<footer>
  <p>&copy; 2026 ANITS College Information Portal</p>
</footer>

</body>
</html>

```

style.css

```

header {
  background-color: #1a2b4c;
  color: white;
  padding: 24px 20px;
  text-align: center;
}

nav a {
  color: white;
  margin: 0 12px;
  text-decoration: none;
  font-weight: bold;
}

.dept-grid {
  display: flex;
  flex-wrap: wrap;
  gap: 16px;
}

.dept-card {
  background: white;
  border-radius: 8px;
  padding: 16px;
  width: 180px;
  box-shadow: 0 2px 6px rgba(0,0,0,0.12);
  text-align: center;
}

table { border-collapse: collapse; }
th { background-color: #1a2b4c; color: white; padding: 8px 12px; }
td { padding: 8px 12px; }

footer {
  text-align: center;
  background-color: #1a2b4c;
  color: white;
  padding: 12px;
}

```

7. CODE EXPLANATION

Tag / Code	Explanation
<header>, <nav>	Defines the top banner and navigation links of the portal
<section id="">	Groups related content and provides an anchor target for nav links

.dept-grid { display: flex }	Arranges department cards in a flexible, wrapping row
.dept-card	Styles each department card with padding, radius and shadow
<table>,<tr>,<th>,<td>	Displays contact details in a structured row/column format
<footer>	Defines the bottom section of the portal with copyright text
box-shadow / border-radius	CSS3 properties giving cards a soft, modern appearance

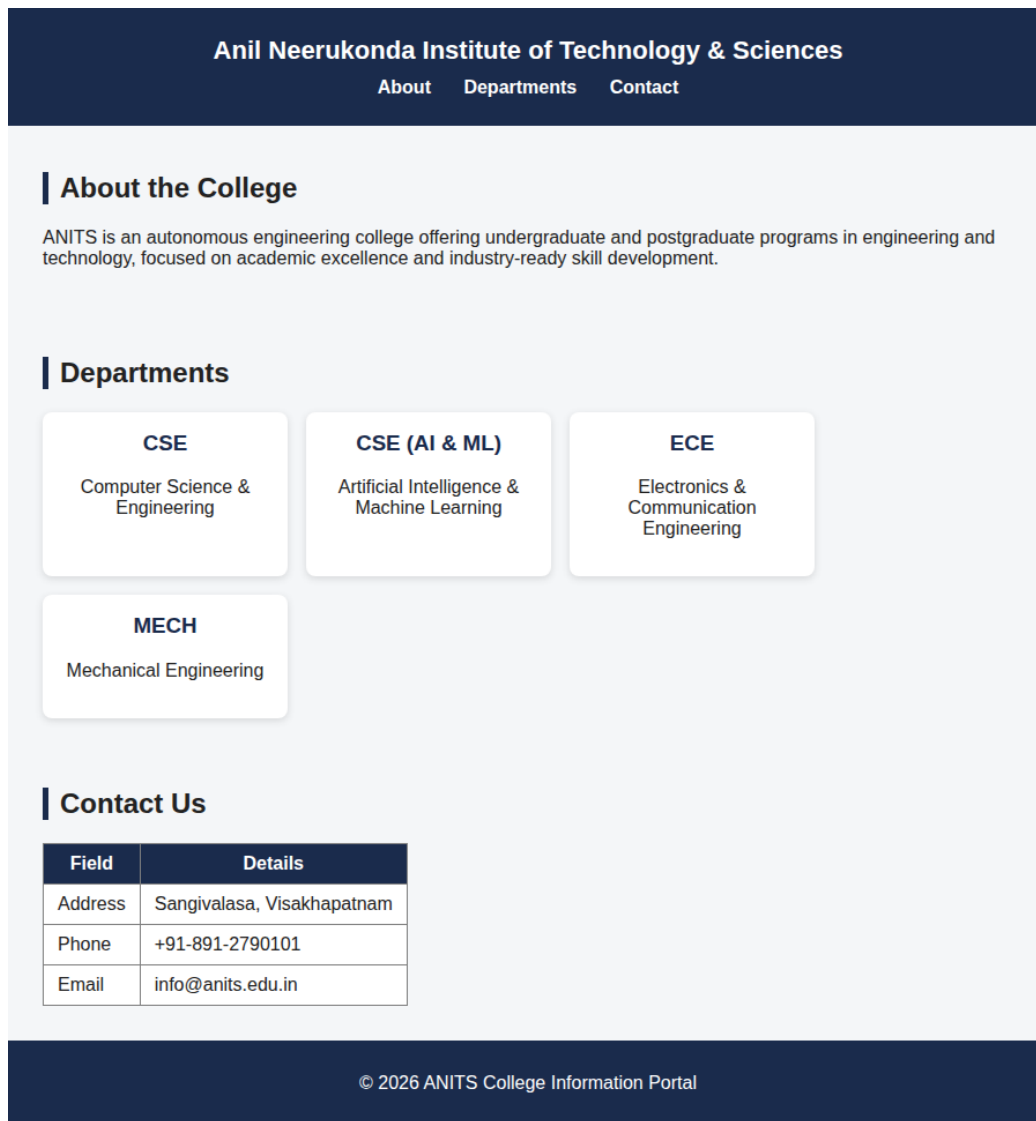

8. TEST CASES AND EXECUTION DATA

The portal page was opened in a browser and each section was verified.

Test Case	Description	Expected Result	Actual Result	Status
TC-01	Open index.html in a browser	Header, sections and footer all display	All sections displayed correctly	Pass
TC-02	Click a navigation link	Page scrolls to the corresponding section	Scrolled to correct section	Pass
TC-03	Check department cards	Cards display in a wrapping grid layout	Cards displayed in a grid	Pass
TC-04	Check contact table	Table displays address, phone and email	Table displayed correctly	Pass
TC-05	Resize the browser window	Department cards wrap responsively	Cards wrapped correctly	Pass

9. OUTPUT

Output: College Information Portal Rendered in Browser

Portal page showing header/nav, About, Departments grid, Contact table and footer

10. RESULT

Thus, a College Information Portal webpage was successfully designed using HTML5 and CSS3, and the layout was verified in a web browser.
